Angelica Coleman
Reboot Safety

Hello,

My name is Angelica L. Coleman and I am the Founder of Reboot Safety. I am authorized to represent the organization.

The organization, Reboot Safety, originally authorized the creation and use of the Twitter account @RebootSafety.

The organization, Reboot Safety, has attempted and is not able to access the account through our standard process.

I am requesting that the email associated with the account be changed to 'angie@rebootsafety.tech'.

Please see my signature below indicating all of the above is true and accurate.

Thank you for the help and support.

Cheers,

Angelica Coleman
Founder & CEO of Reboot Safety
